## SUPERLATIVES

3. Entertaimant Administration is the funiest career

## Which career I prefer?

I prefer to study Entertainment Administration because you can do many intresting things like participate in many festivals or massive events of artirst or other famous people. You can learn a lot about music, culture, audio and publicity. I also think that is very fun beacuse you don't have to be in a office all day. Bussines Administration is a good career but Entertaimant Administration is more amazing. Entertainment Administration is a not common career, so there aren't many places where you can study it. Entertaimant Administration is better option tha Bussines Administration if you want to do something different.
