-

SUPERLATIVES

1. The most difficult job is being an architect.
 2. The most creative profession is being an architect.
 3. The most organized person is an accountant.
-

WHICH PROFESSION DO I PREFER AND WHY?

I would prefer being an accountant to being an architect because I am not very creative. Being an accountant is more stable and less stressful. I enjoy working with numbers and following clear routines. Architects have more creative freedom, but I don't think that's for me. I like the organized and predictable work of accounting. I would choose being an accountant over an architect.
