MAESTRO: MERIA FERNANDA

ACTIVIDAD: STORYTELLING

MATERIA: INGLES

LIENCIATURA: ADMINISTRACION

Canada high school trip

Almost two years ago I went to Canada in summer, I visited three states, Toronto, Ottawa and Montreal, and I also went to Niagara Falls what is a little town close to Toronto. The trip was a school trip, so I went with all my classmates of my generation, honestly the trip wasn't really good, I mean the places we visited were really amazing but we didn't have enough time to enjoy everything but it was funny hahaha. We visited places like museums, Parks, and Universities. My favorite places were Niagara Falls and Montreal. Niagara is a place really spectacular and there is like a park of games by the falls. I bought a lot of souvenirs there and I also took a lot of pictures, there we separated in groups so while someones were on a game others were buying or seeing a attraction. I remember that while I were waiting in a line with my friends we heard a racist man talking about us because we were from Mexico and well, he noticed because we were speaking Spanish. But, also happened us something really cute, we were waiting in the bus station and we saw a group of friends they were American, and they had really good vibes and were dressed so good, we noticed a specific girl that looked really nice so we decided to talk to her, that was crazy but she was so kind with me and my friends we got the bus together and we talked all the time until our destiny, that was really cute. I lived a lot of things in Canada so I am so happy to visit that Country, It was beautiful.
