## My dream house

My dream house is a cozy cottage by the sea. There is a lovely garden with colorful flowers in front of the house. Inside, there is a spacious living room with a comfortable sofa and a fireplace where I can relax. There are big windows that allow plenty of natural light to flood in. In the kitchen, there are modern appliances and a dining table where I can share meals with friends and family.

There is also a cozy bedroom with a soft bed and a reading nook. In the bathroom, there is a bathtub where I can unwind after a long day. Outside, there is a wooden deck where I can enjoy the ocean breeze and a hammock to rest and watch the sunset.
