My dream house.

The house of my dreams is a two-story house, with beige colors to stand out, that at the entrance there is an electric black gate next to its door of the same color and design, that the garden is full of plants, and in the garage it will be like very beautiful mosaics, inside the kitchen I want it to be integral, that there is a bathroom per room and apart from the visitors, my second floor I want only the rooms and downstairs living room, kitchen, hallway and a bathroom, actually simple but nice
