My dream home is a two floor apartment, in the first floor there is a kitchen, a dining room, the laundry room, a living room and a small backyard, in the second floor we have a bedroom.

In the kitchen we have a stove to cook all of our delicious meals, a toaster and a microwave oven, right next to the kitchen we have a table and two chairs that work as a small dining room.

In front of the dining room we have the laundry room in which there is a washing machine.

Right at the entrance we have the living room where we can watch TV, sofas, a coffee table and a small bookshelf.

Next to the living room there is a small backyard with plants and a small place to hang out.

And last but not least upstairs we have the main bedroom in which there is a bed surrounded by two lamps, a desk to do homework, a vanity, a mirror and a closet.

That would be my dream home.
