My house

The house of my dreams is one that has a big garden, with two floors, with 4 bedrooms, a large kitchen with a big drawing workshop, with a very large garage. I like motorcycles and I want to have a large garage to store them. May my house be black and White,

I want my house to be comfortable and very pretty. There are several pieces of furniture that I would really like: armchairs, tables, chairs, computers and a television.

A big pool so that my children can have fun and also a house for dogs because I like them a lot, there is a specific breed, an Australian shepherd.
