## your dream home

My dream house would be. Two-story with four rooms, painted lilac with a back patio and a front patio, on the ground floor we would find the living room, and on the side there would be a bathroom, then in a hallway is the kitchen and next to it would be the dining room, going out we find the backyard where there is a garden and a table to drink coffee in the morning, we will also find the laundry room, upstairs there will be the 4 rooms each with its closet and bathroom, the windows will be glass and Also in the hallway there will be a room for visitors.
