My idea of dream house is this.

I would like a house with I big living room, courtyard view, there are many plants so there is a plant stand, neutral colors in the walls, a pretty kitchen and everyone in my family could decor his room as they want.

In my room there are a big mirror, a fluffy bed, a side table and a vanity.

In the living room there is a big carpet so I can take the sun, there is a common sofa, there are some lamps and pouf next to the sofa so you can read, also a there is a big TV and in the middle of the living room the is a table.
