Grado: 2° Grupo: "B"

"CONVERSATION JOBS".

Plumber: "I fix pipes and leaks every day. What do you work on?"

Electrician: "I install and repair electrical systems. I make sure everything is safe and functional. And you, painter?"

Painter: "I paint walls and ceilings. I choose colors and make homes beautiful. How is your day going?"

Plumber: "I start with a kitchen sink today. It has a leak. How about you, electrician?"

Electrician: "I check the wiring in the living room. It has a short circuit. And you, painter?"

Painter: "I prepare the walls in the bedroom. I clean and prime them for painting. Do you need any help?"

Plumber: "Not now, but thanks for asking. How about you, electrician?"

Electrician: "I am good too. I finish my work soon. Painter, do you need any help?"

Painter: "No, I am fine. I start painting soon. Let's take a break together later."

I hope this helps! If you have any other requests, feel free to let me know.
