# ONE DAY SUMMER

## CON AMANDA

One hot summer day we decided to go to the river. We woke up very early, and when we arrived we began to pack our things when suddenly we realized that we hadn't bought tortillas for breakfast.

We were worried because we didn't know where to go shopping. We found a store and asked the lady who helped us. She told us where we could buy.

We went for the tortillas and started breakfast.

We cleaned up and decided to go swimming, well they swam because I don't know how to swim, my boyfriend started teaching me when we slipped because the stones were slippery, I was almost drowning but he helped me out, Then I stayed on the river bank while they went swimming, el día estubo divertido, pasamos un bonito día de verano,

I haven't learned to swim yet, but while I'm learning, I just watch others swim.

We always have to be cautious not to run at that moment, we have t

o learn to swim since it is useful for any situation that may arise.
