# my first love

**A few years ago when I was only 16 (sixteen) years old, I remember very well that on December 19, a very unforgettable day for me, I met a boy in the park, he was super cute, the boy was sitting with his family, and suddenly he stood up from where he was and approached he said "HELLO" to me and I politely replied "HI" he asked me another question: What is your name? I replied "My name is Monserrat I'm glad to meet you". He told me, "Wow, what a nice name you have". I asked him his name and he replied, "my name is Johan, I'm glad to meet you". Afterwards we started talking, but I always looked at his beautiful warm light brown eyes, until he told me "do you want to be my friend" and I clearly told him that he gave me his phone number and I said good bye to him because he already he left, every day we talked by text day and night, I fell in love after a month because the words he told me were unique, three days passed and he told me " hey monse I would like to see you again" I reply " of course tell me what day and I will let you know if I can why I have to ask my parents for permission" .After three days passed and we saw each other, when we arrived at the place where we were going to see each other I saw that he had a huge stuffed animal with a super large bouquet of roses and poster that said "I can be your boyfriend" clearly I ran towards him and he, He asked the question that was on the poster and I told him "of course I want you to be my boyfriend". He gave me roses and he told me "I love you too much, my pretty little girlfriend". He took me to eat some delicious taquito, after that he went to drop me off at my house, I said goodbye to my boyfriend and I went into my house, after that I told me " Daughter, I know you are in love of the young man but take care of yourself and give yourself respect" then I went to my room, I was so excited and from that time until now we are still dating.**
