## MY STORY

Me Viviana Lopez. I had told my parents that I was going to save up to buy a phone since my current phone was breaking down, they surprised me at Christmas last year 2024, my parents gave me an iPhone phone, since they gave it to me because I had very good grades in the study, which they told me they had a surprise for me, but I had to wait for Christmas Eve, since Santa Claus was also going to leave me a gift, for a moment I didn't I had not the slightest idea that it was the phone that I was saving for, when Christmas Eve arrived I saw the surprise and I was very happy, I thought they would give it to me on my birthday, but they came early, since I had always wanted have another phone, the truth is I really liked it, but I'm disappointed, because it's a phone that I have to change the number and I don't want that, because it's starting from scratch, and the current number is where I gave it very important reasons, which. I have to give up, to be able to use the phone since I liked it a lot, although I still don't know how to use it much, because I have already gotten used to Android phones. But now that I have an iPhone, I don't want to change because the truth is it's a little difficult to grab another phone that I've never had before.
