Ingles II

Actividad:

Past tenses

Nombre del Profesor:

Maria Fernanda Montserrat Campos Roman

Grado: 2º Grupo: A

Last Friday I was eating with some friends in an oriental restaurant, Pablo drank a lot of alcohol and Ani felt sad because she had a lot of discomfort in her stomach, because she has gallbladder problems and she is forbidden to eat greasy things and it was just the beginning of the night, since after eating, we would go dancing a little.

A few minutes later, mom called me and told me that my brother was arriving at the airport and that I have to take him home, so I was upset, because it was my only free time and I was having a lot of fun, we were fighting on the phone, then I decided to take my brother home.

When I left the restaurant, Ani just called me and told me that the police were looking for Pablo, because he ran away from the restaurant, because he had drunk too much, he got very drunk and broke glasses from the restaurant and left without paying, now Ani has to pay for all the damage that Pablo caused in the Restaurant.

When I got home with my brother, I told the situation to my mother, then I realized that if I had not obeyed my mother, if I had gone to look for my brother, I would have also paid Pablo's bill with all the mess. what cause

The good thing is that I had gone to look for my brother, the next day I met up alone with Ani and Sofi to go out to eat again, but we ended up going to the beach there we were having fun in a calmer way without alcohol and without Pablo, now that I had not finished talking with my friends the night before and we did not want to repeat what was the last time.
