## MY DOG CALLED SOLIN

Hello, my name is Monserat, since I was little I have always liked animals and I had many pets that I loved very much. When I was 10 years old I had a dog named Solin. He was a dog that we rescued from the street and he was very cute with my family. Unfortunately the puppy was hit by a car, so the only had 3 legs. This is how he learned t olive abd could ever run

I remember one day I was walking to school when suddenly a dog came out to bark at me, I was crying very scared and I was screaming for someone to help me, the street was empty and no one was listening to me but suddenly Solin was running towards me and I was scared. to the other dog. He proved to be very brave and loyal

Although he was very small, he was not afraid and took care of me from that dangerous dog.

When I got to school the teachers were surprised to see me crying. I told them what happened and they started congratulating my dog for being so smart. Since that day Solin always accompanies me to school and stayed outside waiting for me and taking care of me.

From that moment I learned to love pets very much and to take care of them as part of my family. When Solin died I was very sad because he was a good dog and I always remember him with great affection.
