

Name: Henry Caleb Sanchez Calvo

subject: English

quarter 2

Bachelor of Nursing

teacher's name deyci fabiola lopez

date 12/04/2025

title of the work: my autobiography

My name is Henry Caleb Sanchez Calvo I was born on June 9, 2009 and I am currently 15 years old. I was born in the city of Comitán, Chiapas, where I currently live. I live in the Sabinos neighborhood I really like playing musical instruments like the accordion, marimba, guitar, as well as playing soccer and baseball.

I like almost everything when it comes to food. I just don't like eating onions. My favorite food is pizza, and a dessert I really like is chocolate. My routine almost every day starts like this: I get up at 7 am, I get changed to go to school where I start at 8 am and leave at 2 pm. When I get home, I start playing my accordion until I get bored and at the end of the day, I do homework and take a shower and that's how my day ends. Something I don't like doing is cleaning my house, and I don't like having cats. Some of my hobbies are going to Cuba or watching a Tigres game in Monterrey and getting to know many places. I really like learning about the human body and one of my interests is to be a doctor or a similar specialist.

Some things that I don't like are walking or shopping and some things that I like are eating.

What makes me unique? That in addition to offering everyone my friendship, I can learn anything I like.

What do you like most? I like to play my accordion

What are you planning for the future? To be able to finish a university degree in medicine and get a job.
