Nombre del tema: Comparatives and Superlatives

Parcial: 2

Nombre de la Materia: Ingles IV

Nombre del profesor: Deicy Fabiola Lopez Aguilar

Nombre de la Licenciatura: Técnico en enfermería

Cuarto semestre

Water bodies are essential parts of our planet, and today I want to compare three of them: the **ocean**, the **sea**, and the **river**. I chose these because each one has unique characteristics and plays a different role in our ecosystem.

COMPARATIVOS:

The ocean is more large than the river

The river is more smaller than the sea

The sea is as saltier as ocean

SUPERLATIVOS

The ocean is the moust deep

The river is the moust visited

The sea is the moust beautiful

I prefer the sea because I love the sand and all the animals, such as fish, turtles I consider it the most beautiful.
