Title: "Describing and Comparing: Superlatives and Comparatives."

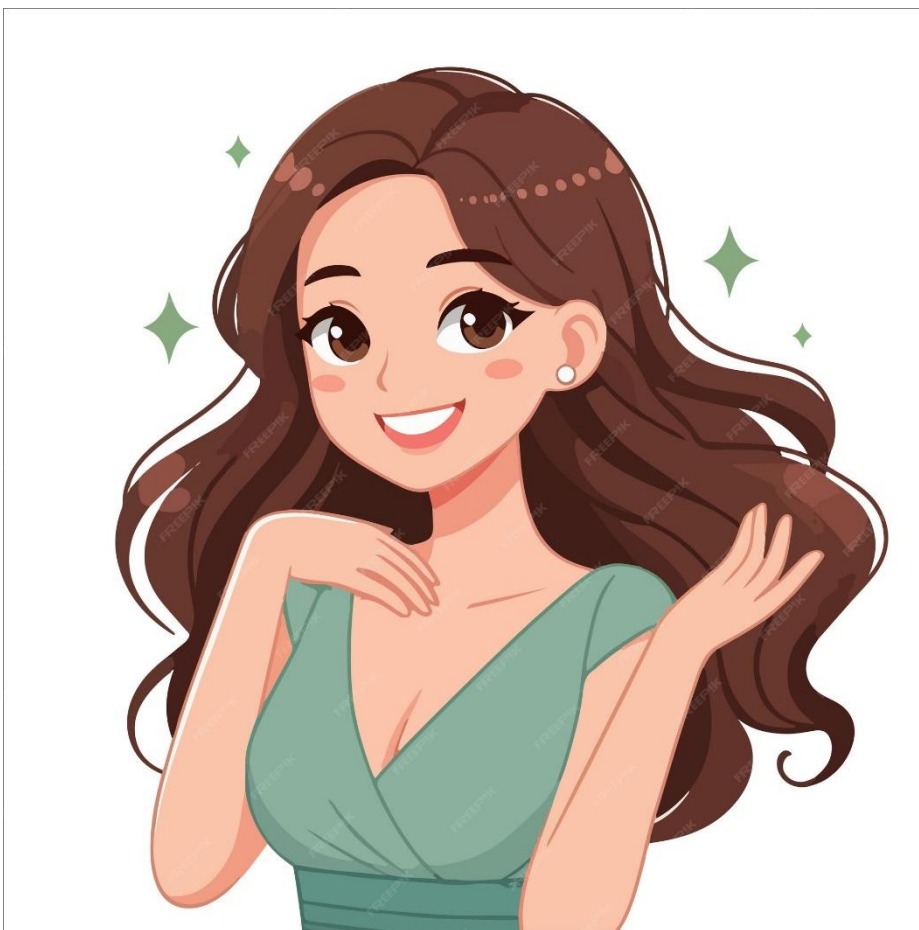

INTRODUCTION

I am pleased to present a detailed comparison between three friends of mine: SG, CARO and AGUSTIN I chose them because they are very different people and each has their own strengths and weaknesses. I would like to compare their athletic, academic, and creative skills to determine who is the most outstanding in each area.

SG: a kind, friendly and angry person, cold, he likes horses between Grannde and the biggest, above all he is dedicated to what he does with defects and errors like everyone else, an ingenious person and always has few friends and is reserved with what he does in some aspects and moments but he is very dedicated to what he does and has a good, big and noble heart, different from other people, so respectable and respectful...

Caro: a happy girl, sad but with a big heart like every person, she has her character and is someone difficult to gain her great trust but she is educated, friendly and undoubtedly dedicated to what she sets out to do, she takes care of her diet and is healthy with that and she is and will be as beautiful as any other girl, that little essence that differentiates us from the rest of the other people...

Agustín: a bearable person, angry about anything and arguments, although somewhat risky with what he does and says, of course, and dangerous and somewhat rude with his words, and he can't change that big and small detail and his way of being and responding, he is very observant with small things and is someone who is fascinated by daneralina but with a great sense...

CONCLUSION

After comparing the sports and academic skills of SG, CARO, and AGUSTIN, I can conclude that SG is the most outstanding of the three. He is the fastest, the strongest, and the smartest. However, each of them has their own strengths and weaknesses, and it is important to recognize and appreciate their differences. Personally, I prefer CARO because she is a very creative person and always finds innovative solutions to problems. Her intelligence and sports skills make her stand out in any area she sets her mind to
