TEXT MODAL VERBS

A Month ago. I went to The dentist because I was always in pain and don't eat. The doctor suggested that I should get an X-ray. After that, I took an X-ray and showed it to him. He told me that my front teeth have cavities. He said the only solution was to get them removed to avoid the pain. And if I pick them up and he told me that I have to attend my appointment in 15 days.

After that I recovered and at that time there was also an assembly in my community to discuss certain points about water. And in my opinion, regarding water pollution in my community, it is that we don't longer have enough water. Sometimes it reaches our homes, and if in our community we were to run out of water, it would be very difficult for us to live, as well as for the animals, and our situation in our community would be very difficult.
