Last week, it was morning, I was suffering from severe pain in my knee. The next day, it was Tuesday, I went to the doctor and the doctor told me that, I should have an X-ray or a CT scan.

He also told me that I should apply ice twice a day, I replied, "if I get tested and put ice on my knee, I'll recover".

Time passed and I improved, then some people approached me and invited me to a conference to give my opinion on the topic of environmental pollution. "I believe that directly and indirectly affects just humans, but also disrupts the balance of ecosystems".
