ESPRESS Y REACT

PERSONAL PROBLEM

I get distracted easily when I try to study

ADVICE

You should study in a quiet place without your phone.

You must create a Schedule to manage your time better.

REAL SITUATION

If I concentrate more in all classes I Will be able to get good grades.

POLLUTION OPINION

In my opinion, the kind of pollution that I believe harms people the most is the one that alters life's basic condition, and that reach our lungs.

I think that essential that each person takes measures to reduce their ecological footprint, such as reducing plastic consumption, recycling, using public environmental protection initiatives.
