## **Use of “Should and must”**

Whenever I visit my brother, he tells me his problems...  
He tells me that he has a bad memory for exams at school.  
And I say to him: you should study for many hours and concentrate.  
He answers me: I watch too much television at night.  
I answer him: you should stop watching too much television  
He also tells me that he uses the phone too much.  
I tell him: you must stop using the phone.  
You must be responsible and aware.  
You should consider studying as a life opportunity.  
And you must not forget that you are the future of the family, and society  
You must also remember that we love you very much.  
You must not smoke and you must not consume alcohol until you complete your studies.  
You shouldn't waste your time.

## **Use of “First conditional”**

I am happy eating at night, however, If I eat too much it will hurt me  
The doctor recommends me not to have dinner, however, If I sleep hungry, I'll have nightmares  
My mother told me she would come today will it be true?  
If she calls me, I will answer the phone  
I'm sure mom will come  
If the weather is nice we will go to the river  
If you are happy, we will visit many places  
If there is money, we will go very far  
That's what money is for  
That's why the saying is clear...  
If you work hard, you will earn more money  
Well, if my mom comes home, I'll be happy.

## **My opinion**

really like doing English homework, but not only that, it also represents my grade...  
I think that... It's a nice job.  
English is not strong suit...  
It is not best subject, because it is difficult for me  
I believe, I think it's normal...  
English is not my native language  
In my opinion, English class should be the easiest  
that class causes fear among students. Have different opinions.
