The weather today looks:

*Party Cloudy*

Today's date is:

*October 28th Tuesday*

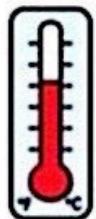

Color the weather today:

When I go outside, it feels:

(hot, warm, cool, cold, freezing)

*Cold*

The temperature is:

*22°*

The time is:

*10:28 am*

What else have you observed about the weather today?

In the morning the weather is partly cloudy and the temperature is warmer in the afternoon, and the weather changes — it's cold or hot. I also observed that the wind makes the clouds move quickly across the sky, and sometimes the sun comes out for a moment before hiding again. The weather keeps changing slowly during the day.

# WEATHER OBSERVATIONS

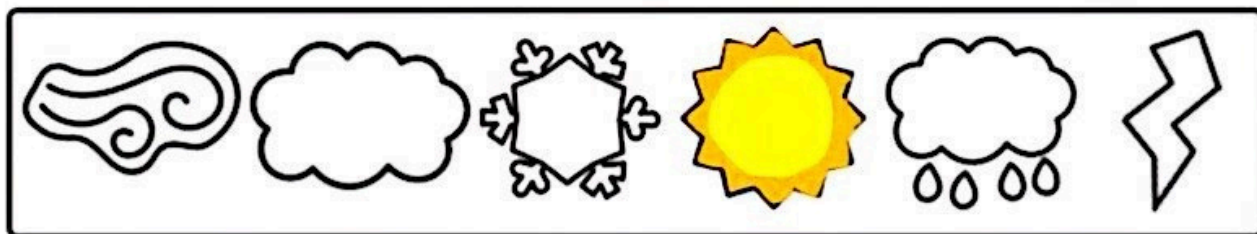

The weather today looks:

Sunny

Today's date is:

Tuesday November 4 2025

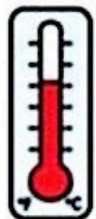

Color the weather today:

When I go outside, it feels:

(hot, warm, cool, cold, freezing)

Hot

The temperature is:

19°

The time is:

9:34 am

What else have you observed about the weather today?

The sky looks a little hazy this morning. I also noticed  
that the sunlight looks softer because of the haze, and  
the temperature feels warm when the sun hits  
directly. The sky becomes clearer little by little as the  
morning continues, and the weather feels stable but  
slightly warm.

# WEATHER OBSERVATIONS

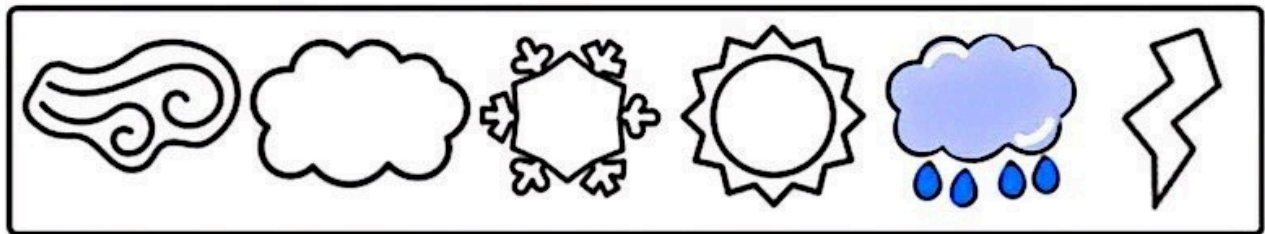

The weather today looks:

What else have you observed about the weather today?

The sky looks partly cloudy and feels cold. I  
also observed that some clouds are moving fast  
and covering the sun from time to time. The air  
feels fresh, and there are moments when the  
wind makes it feel even colder. It seems like the  
weather could become rainy later.

# WEATHER OBSERVATIONS

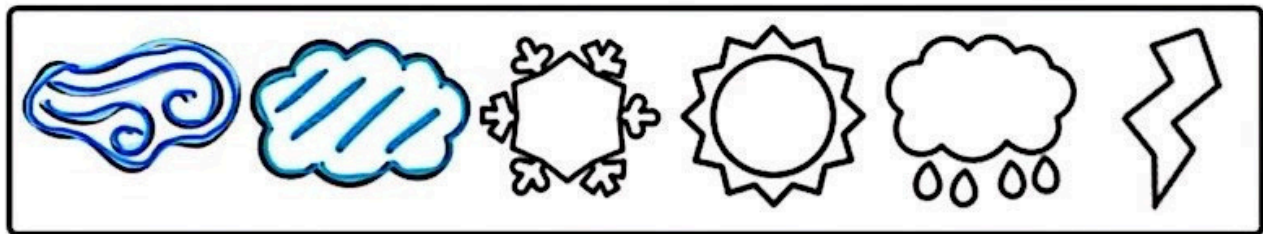

The weather today looks:

Windy and cloudy

Today's date is:

Tuesday 11st November 2025

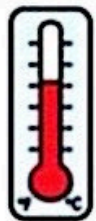

Color the weather today:

When I go outside, it feels:

(hot, warm, cool, cold, freezing)

Cold

The temperature is:

15°

The time is:

9:30

What else have you observed about the weather today?

- It's a mix with windy and cloudy, it feels cold. I also
- noticed that the sky looks darker because of the thick
- clouds, and the wind makes the trees sway a lot. The air
- feels colder than the temperature because of the wind,
- and it looks like the weather might change later.
